

PRU
Plant. Raise. Understand.

Prices are subject to 10% service charge and 7% government tax

It is our pleasure to offer you the selection of wines on the following pages.
As part of the restaurant philosophy, every wines selected in this list have been made according to the following principles:

SUSTAINABLE

Sustainable agriculture attempts to minimize environmental impacts and ensure economic viability and a safe, healthy workplace through the use of environmentally and economically sound production practices.

ORGANIC

Organic wine is made from grapes grown in accordance with principles of organic farming, which typically excludes the use of artificial chemical fertilizers, pesticides, fungicides and herbicides.

BIODYNAMIC

The concept behind biodynamics is that everything in the universe is interconnected and gives off a resonance or 'vibe'. The interconnectivity of everything even includes celestial bodies like the moon, planets and stars. Biodynamic viticulture is the practice of balancing this resonance between vine, man, earth and stars. Essentially, biodynamics is a holistic view of agriculture.

NATURAL

Natural Wine is farmed organically (biodynamically, using permaculture or the like) and made without adding or removing anything in the cellar. No additives or processing aids are used, and 'intervention' in the naturally occurring fermentation process is kept to a minimum. The result is a living wine – wholesome and full of naturally occurring microbiology.

We also feel that we must point out that wines in Thailand incur a number of taxes as they are treated by the Thai government as a luxury item. The combination of compounding taxes results in a tax of approximately 430% on all imported wines, and even locally produced wines, of which the quality is improving, attract a disproportionately high tax.

Please do let us know if we can make a recommendation and we look forward to perhaps sharing a glass or two with you.

With kind regards
PRU team

PREMIUM WINE BY GLASS

150 ml

“Higher quality classification of wine above every day drinking table wines. While premium wines maybe very expensive there is no set price point that distinguishes when a wine becomes a “premium wine.” Premium wines generally have more aging potential than every day quaffing wines”

WHITE WINE

			Glass	Bottle
●	2012	Nicolas Joly, Savennieres “Les Vieux Clos”, Loire, France	1,100	5,500
☼	2015	Château Montelena, Chardonnay, Napa Valley, USA	1,300	7,000

☼	2005	Niepoort Vintage, Douro, Portugal 375ml	7,900

SAKE

Nihonshu: Japanese Sake

Made from summer grown rice, fermented with koji, yeast and cold water during winter, Sake pairs harmoniously with food, and is softer than wine. While we suggest serving temperature, let us know your preference.

				Glass	Bottle
FINE AND RARE					
PRU's selection of the stars of the sake world, made only in small quantities					
Daishichi Minowamon Kimoto Junmai Daiginjo, 15%	720ml	Fukushima	Chilled	1,300	6,500
UMAMI					
The Japanese word for "savory", these sakes are to be appreciated gently					
Tengumai Yamahai Junmai, 15%	720ml	Ishikawa	Chilled/Warm	700	3,500
SWEET					
Sweetness comes from age, fortification or steeping with fruit					
Nanbu bijin Umeshu, 10%	720ml	Iwate	Chilled/Warm	700	3,500
